EDUCATION

Bachelor of Engineering, Swaminarayan University

2026 – 2029 | Ahmedabad

Higher Secondary Education, Noble School Of Science

2024 – 2026 | Naroda

Secondary Education, Grow More School,Naroda

2025 – 2026 | Ahmedabad

SKILLS

Languages & Frameworks

C++, JavaScript, TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, Material UI (MUI)

Databases & Backend

Node.js, Express.js, MongoDB, Mongoose, MySQL, REST APIs, DBMS

Tools & Platforms

Git, GitHub, Postman, Vercel, Netlify, Figma

AI-Assisted Development Tools

ChatGPT, Claude, GitHub Copilot, Gemini, Cursor AI

Core Concepts

Data Structures & Algorithms, Object-Oriented Programming, API Integration

PROJECTS

AI Onboarding Engine

Tech: React.js, JavaScript, AI, Tailwind CSS, REST APIs

Built an AI-powered employee onboarding platform that personalizes onboarding workflows based on employee roles and requirements. Developed responsive UI components for onboarding tasks, role-specific learning resources, AI-driven assistance, and progress tracking. Integrated AI capabilities to provide contextual guidance and streamline the onboarding process, helping reduce manual HR effort and improve the overall employee onboarding experience.

ShuttleCore

Tech: React.js, JavaScript,Node.js,Tailwind CSS

Developed **ShuttleCore**, a web-based solution designed to simplify shuttle and transportation management by providing users with an accessible, intuitive platform for managing and accessing shuttle-related information. The application streamlines the overall user experience through a responsive interface, interactive features, and organized information, reducing the complexity and manual effort involved in coordinating shuttle services.

LANGUAGES

- English
- Hindi
- Gujarati

HACKATHON & ACHIEVEMENTS

NaturePulse – International Hackathon Project ,

Tech: React.js, JavaScript, Tailwind CSS, REST APIs

Developed **NaturePulse**, a web platform that enables users to identify plants from uploaded images and provides relevant information about the identified plant, including its name, characteristics, and related details. Designed an intuitive interface to make plant identification simple, interactive, and accessible for users.

BloodBridge – Emergency Blood Connect

Tech: React.js, JavaScript, Node.js, Express.js, MongoDB, REST APIs, Tailwind CSS

Developed a responsive web application for connecting blood donors with patients during emergencies. Implemented interactive donor and blood-request workflows, intuitive user interfaces, and real-time matching functionality to simplify blood availability tracking and improve emergency response efficiency.

EXPERIENCE

LexIndia – Smart Legal Research Platform

Tech: React.js, JavaScript, Node.js, Express.js, MongoDB, REST APIs, Tailwind CSS

Developed **LexIndia**, a web platform for exploring and understanding Indian laws and legal information.Organized legal acts and sections into a structured, easy-to-navigate interface.Implemented search and browsing functionality for quick access to relevant legal content.Designed a clean and responsive user interface for an improved user experience.Built the application using React.js with a modern component-based architecture.Focused on making complex legal information more accessible and user-friendly.

CERTIFICATES

- Tic Tech Toe '26 
- OceanLab × CHARUSAT Hacks 2026– AI Hackathon 
- VishwaNova – National Level AI Hackathon 
- ArtPark CodeForge Hackathon 
- ET-AI Hackathon 2026 – Semi-Finalist 
- Hack-Aarambh 2026 – Startup & Innovation Hackathon 
- SU Hackathon 2026 – Innovation & Technology 
- AI Tools & ChatGPT Workshop – be10x 
- Introduction to HTML – Simplilearn 
- Copilot Foundations – Microsoft & Simplilearn
